

Cooperation Agreement - Team

The goal of this Team Agreement is to facilitate your group in establishing a solid basis as a project team that you can rely on during the entire project for coordinating your teamwork and for dealing with problems effectively, in the case that they occur.

2. Defining your individual and team goals in this project

Please state your team goal for this project:

Deliverables:

Member	Deliverables
Dafni Maria Kokkoni	Data Preparation & Preprocessing & Writing Report
Shpetim Veseli	BERT Training & Evaluation & Writing Report
Céline Schmied	Web Crawling & Gemini Skill Extraction & Writing Report

3. Defining rules of conduct

Please specify consequences for a member of your team who does not adhere to deadlines, fails to attend meetings, or does not respond to e-mails/calls:

If you can't meet a deadline, inform the team as soon as possible. Repeated missed deadlines will be discussed as a team, and if unresolved, reported to the instructor. Attend all meetings or give advance notice if you can't. Unexcused absences mean the absent member takes on the meeting notes next time. Respond to messages within 24 hours. If someone is repeatedly unresponsive, the team will have a direct conversation with them.

Please state what steps you will take when you are not satisfied with each other's contributions:

Talk directly with the person — respectfully and privately. **Team discussion** if the issue continues. **Escalate to the instructor** as a last resort.

Once you have drafted your Team Agreement, meet and discuss any edits or changes that are warranted. Upload the final version of it in the course folder on ILIAS.
